About the Event

In the International Year of Light our theme is to "Light Up Rotary". Rotary International President Gary Huang has asked Rotarians across the world to invite local communities to Fun Days where they can engage with Rotary clubs and see what they do.

Rotary Oceania Medical Aid for Children Appeal

Every year 1,000's of children die

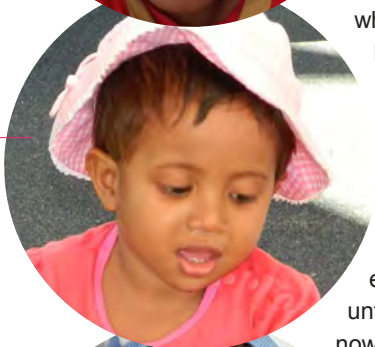

Imagine what your life would be like if your child was ill and you could not access medical treatment. What if your child was disfigured and was treated as an outcast?

Thousands of families face this awful dilemma every day.

These families mostly live 'out of town' or in remote villages - some on remote islands - and are unable to access sometimes even basic medical treatment.

Children like Charlie, above left, 7 years old, who lives on a remote Vanuatu island, had no education, could not read or write, had no wheelchair and could only crawl because he had clubbed feet. But once ROMAC 'fixed' him he did a charity walk for Alzheimer's!

Children like Bakita, left, who along with mum Rita from Timor Leste arrived with minimal clothing and spoke no English. They came to repair the hole in Bakita's heart. Following an Echo Cardiogram her operation was a success and her fast recovery was impressive.

Children like Rexly, below, had a fever, was frail and weighed just 7kgs at 15 months due to complicated heart problems. As his ability to endure massive surgery was in doubt he was put on a strict drugs regime until his body was strong enough to let the medical team operate. He is now enjoying a healthy, happy life back home.

Over the years ROMAC has proudly changed and saved the lives of close to 400 children, one child and one family at a time.

ROMAC is supported by compassionate surgeons and their teams who often donate their time and expertise. They also learn amazing, new techniques that have benefited our children.

This compassion coupled with minimal overheads - no office, no paid staff - ensures that every donated dollar is worth many, many times more.

Plus it's comforting to know that your donations are spent supporting our businesses here in our local communities where our local hospitals are located.

Only with your continued support can ROMAC continue saving the lives of these deserving children, often giving them and their families their one and only opportunity to live a normal, healthy, happy life.

Please help volunteer Rotarians continue their humanitarian work with a generous, tax deductible* donation now because, sadly, ROMAC's children often can't afford to wait.

Your donation will make a difference and allow ROMAC to continue its humanitarian work changing and saving children's lives. On behalf of our children and their grateful families, *thank you*.

Yes! I would love to save a child's life. **Donations of \$2 or more are tax deductible.**
