All participants were enthusiastic about the worth of this course of study, and see it as a great source of updating the role that Rotary has in influencing and addressing real human need in our contemporary world.

Russell Osborne is a keynote speaker at our District 9520 Conference in Warrnambool March 2014.

Russell Osborne, CEO of Outback Australian Camels, an Australian organisation assisting individuals and groups to reconnect with themselves and nature through the use of camels in expedition style camel safaris.

Having spent much of his life living and working with the Aboriginal People in remote communities, as a teacher, lecturer and care giver, his extensive knowledge and skills gained from such relationships have prepared him for what many described as an impossible task.

Thirteen years of preparation and two years of walking 6500kms throughout some of the planet's harshest and remote regions, a dream was finally accomplished as the camel expedition reached the Royal Children's Hospital to thank Humanitarian, Moira Kelly AO for her life of service to children in need.

Did you know that \$250 can change the life of a child, or young adult, the family of those affected by a member having a cleft palate and the acceptance of the village in which that person lives .

With the support of a District Grant, the Essendon Rotary Club is sponsoring a surgical team to perform 25 operations. The plastic surgeon will be operating for 3 days at a newly established hospital, and his whole team of 10 assistants will accompany him.

Operation Cleft has now developed a booklet that has been translated into Bangla and is distributed by the surgeons and staff to the parents before or after the surgery. Local Community Hospital Workers receive training to care for patients after the operation.

Since 2005 Operation Cleft has changed the lives of 8500 children of Bangladesh .

If your club would like a guest speaker I am more than happy to spread the "Good Works" of Operation Cleft. Maybe YOUR Club(or perhaps a shared venture) could look at using a grant to sponsor a surgical camp in Bangladesh ? Judy Shipp President Rotary Club Holdfast Bay 0418 814 080

Rotary International Women's Day Breakfast presents Dorinda Hafner

Dorinda Hafner is a breath of fresh air. Be in her company for more than a minute and you wonder what your life was like before you met her! She is a teacher, a motivator, a free-spirit. She moves into a room full of people for the sole purpose of reminding them that life is for living - this is what she was put on this earth to do.

Dorinda is Australian and all that means is that she chose the country to bring up her kids and thus started to educate people in issues of acceptance and tolerance back in the days where there was little. She started Africa in Schools, a very successful program to bring cultural understanding to the future adults who would go on to be influential in the Australian fabric of life. She brought us all things "African" including the African Dance Troupe and a greater understanding of the fact that Africa is a continent, not a country. To this day, she is still educating, but on a much larger scale.

Dorinda burst onto our TV screens all over the world with her very successful Documentary series "A Taste of Africa" and it's subsequent international best-selling book by the same name. To this day it remains (in its many revised forms) the most interesting and sought-after book of its kind in the world. She has 5 "A Taste of" series spanning the UK, US, the Caribbean and beyond and her shows are seen in over 48 countries. Her books have been translated into 5 languages and most recently Dorinda is virtual and is broadcasting her amazing talents and skills as not just a food anthropologist and author but a public speaker, a designer, an artist, a storyteller not just for kids but for all ages who love to see and hear the soul of a true free spirit.
