FROM: DG Roy Armstrong

Date of Issue: 22nd July 2012

Welcome to this week's issue of the Herald. Lots of items for this week.

Health of the River Forum – Relocated

The "Health of the River" program which has been successfully run from Lake Cullulleraine for many years is now moving to an even better location CALPERUM STATION out from Renmark. Both Greg Missen and Michelle Kavanagh the program organiser and coordinator enthusiastically endorse the new venue. They will be working closely with the scientists from Calperum Station who are very much looking forward to having "Health of the River" on their patch. The Calperum team are excited that their very extensive scientific resources are to be used to help give young people a better understanding of the needs, requirements and benefits of Australia's greatest and now endangered river system.

The relevant dates for this year's "Calperum Health of the River" are –

- Information about "Calperum Health of the River" will be sent to schools in the first half of August
- Rotary Club applications will close
End of September
- The "Calperum Health of the River" Forum will be
November 1st to 4th

Watch the Weekly Herald for more "Calperum Health of the River" information as the planning details are finalised.

Would club presidents please pass this information on to their club youth program organisers.

Roving Lifestyles (Your Purchases Helping Your Club and Rotary)

ROVING LIFESTYLES are keen to make a presentation to Rotary Clubs as either a Guest Speaker spot or as a five minute presentation to introduce the concept. We are preparing a DVD presentation which we can send to the more distant Clubs.

We are also able to provide a sign-in password to enable the more technological Rotarians to investigate the site.

Most importantly is the offer for Rotarians to promote their products or services on the site AT NO CHARGE. All they need to do is contact us at info@rovinglifestyles.com.au and advise what they wish to promote. We will then get back in contact with them. They will then pay just a 10% commission on any sales made through the site, and we even cover the credit card cost on their behalf.

For more information use the following link:

<http://www.rovinglifestyles.com.au/>

A flyer has also been produced and is attached to this copy of the Herald.

Paying District/RI Insurance Dues

Clubs who may be concerned about the rising cost of Rotary may be interested in the rules associated with paying our RI insurance. For those who do not already know, this will be of interest.

As a general rule fund raising monies cannot be used to cover club administrative costs, which are necessarily borne by our members. The exception to this is insurance which is a necessary part of fund raising and can be funded out of these monies.

Additionally clubs can use fine monies and internal raffle monies to fund administrative cost.

Public Relations and Promoting Rotary

Rotary Zone Co-coordinator for Zone 8 has passed on the following link which may prove a good addition to club websites.

Rotary Insurance Cover for Op Shop Volunteers

Further to last week's information relating to insurance, the following has been added:

INSURANCE AND VOLUNTEER WORKERS.

Oleh Bilyk, our District Insurance Officer, would like to confirm that after discussions with our Insurance Brokers, Aon, that cover exists for volunteers working in our Op shops, Book Shops and so on if a Rotarian is not present.

He stated that this has been a vexing problem for some little time but went onto say that with the help of PDG Bruce Richardson and Waikerie Rotary Club President, Alan Hillier, the matter has been resolved in favour of our Clubs.

It must be noted that any Club using volunteers to perform and supervise Trade activities then the supervising volunteer must have current Trade Qualifications for cover to exist under Rotary's Insurance.
